We are pleased to report that two projects for the support of the Foundation have been completed. The Margaret Tsai Trust completed their Reception Hall on the beautiful Tsai Estate (Happy Cloud Ranch) and have generously made it available to the Foundation for fundraising events and social activities. This facility has a self-sufficient kitchen, open area for food preparation demonstrations, a bar and panino with a terrace overlooking the Tsai Estate with the olive orchard in the background. In addition there is a large art gallery with a stage area for speakers.

The second Project was the building of a business complex on property owned by the Foundation located in Solvang, California. Unfortunately after 5 years and continuous escalating costs, the Foundation was forced to unfund the project.

The Trustees express their appreciation to those donors which contributed to the building project. No funds were used in lieu of the annual dispersement of grants or gifts to senior citizens or grants to organizations.

It is that time of year again! The Foundation is seeking those individuals who would like to volunteer their time to support us in a variety of activities. Serving on committees, assisting in supporting the Director's Office, setting up and manning booths at various public events are always needed and appreciated.

In addition, we are seeking an individual interested in fulfilling the duties and responsibilities as Director of the Foundation. This is a funded position full time. The desirable individual should have an outgoing; friendly disposition with a sincere desire to support and work with senior citizens, organizations and
